BRIDGER REIF HAMMOND

ABOUT

Fullstack Engineer at Dottid, 5 years of engineering experience, 4 years of remote experience, living in Dallas, Texas, United States.

EXPERIENCE

Dottid, Dallas/Remote — *Fullstack Engineer*

APRIL 2020 - PRESENT

- Dottid is a SaaS platform that expedites Commercial Real Estate (CRE) lease transactions through better collaboration, visibility, and quick-and-easy actions.
- Develop clean, maintainable code quickly using an agile process and tools. Techstack included: Node.js (Express, TypeScript), Apollo GraphQL, Docker (containerization), GitLab (repository, issues, CI), functional React utilizing Hooks and Context APIs.

Thinkful, Remote — *Fullstack Engineer*

SEPTEMBER 2019 - FEB 2020

- Released wtfshouldicook.com, focused UI/UX on simplicity using React.
- Released a production ready project management app manageLazily.com using React and Firebase.

Independent Contractor, Remote — *Fullstack Engineer*

JUNE 2016 - AUGUST 2019

- Working as an independent contractor developing production ready Full Stack applications.
- Primarily using Functional React, with Hooks and Context APIs, for the front end. Backends have been built on Node.js using a variety of frameworks from Gatsby to Express and Next.js.
- Cannot disclose client names or applications due to signed NDAs.
