Technical Skills

Likes: javascript open-source google-chrome chromebook reactjs android vue.js
Dislikes: apple ios

Experience

Fullstack Engineer – Dottid   *Apr 2020 → Current*
typescript, reactjs, express, graphql, apollo-client, apollo-server, material-ui

Implement production ready web-app based on designs and customer feedback. Configure and deploy backend schema using Apollo GraphQL.

Front End Developer – WORCpromotions   *Jan 2012 → Current*
javascript, vue.js, sass, webpack

This is my own company I started when I lived in Las Vegas. I use it for my freelance web design and graphic arts work.

Fullstack Engineer – Thinkful   *Sep 2019 → Feb 2020*
reactjs, sql, mongodb, firebase, express, node.js

Released wtfshouldicook.com as a capstone project. Focused the UI/UX on simplicity while reinforcing my React/Express/PostgreSQL knowledge. Strengthening my knowledge of the latest Javascript techniques using React and Express. Expanding my use of back end technologies by incorporating a second live server for housing my database in PostgreSQL.

Floor Manager – Greenhouse Craft Food   *May 2015 → Dec 2015*
twitter, facebook, wordpress

Dealing with people and getting them what they want. Brutal but honest.

Projects & Interests

reifnotreef/reifnotreef.github.io – https://github.com/reifnotreef/reifnotreef.github.io   *Jul 2017 → Current*

WIP Portfolio

reifnotreef/Personal-Beer-Tracker – https://github.com/reifnotreef/Personal-Beer-Tracker   *Jun 2016 → Current*

Ruby webapp for scoring and keeping track of beers(Inspired by Untappd).

reifnotreef/wtfshouldicook – https://github.com/reifnotreef/wtfshouldicook   *Nov 2019 → Mar 2021*

Answer some questions, get a recipe.

reifnotreef/manageLazily – https://github.com/reifnotreef/manageLazily   *Feb 2020 → Feb 2020*

ManageLazily enables company owners, project managers, and employees to have a one-stop project management hub where they can create projects, track project completion and due dates, add tasks to projects, log hours worked on project tasks, and more. Built with simplicity and usability in mind, ManageLazily is a great alternative to more complex (and expensive) project management software.

reifnotreef/ChuckNorrisJokes – https://github.com/reifnotreef/ChuckNorrisJokes   *Feb 2019 → Jan 2020*

Pure JS app working with external API.

reifnotreef/Fireside-Finder – https://github.com/reifnotreef/Fireside-Finder   *Mar 2016 → Jul 2017*

Ruby gem to find local Fireside Gatherings. (Hearthstone)
